<p>1. Title or Area of PhD</p>	
<p>2. Type of PhD applied (By Research/Publication)</p>	<p>By Research - <input type="radio"/></p>
	<p>By Publication of Research Articles - <input type="radio"/></p>
	<p>By Publication of Academic Book - <input type="radio"/></p>
<p>1. If By Research, submit your proposal including followings, (Max 3000 words)</p> <ul style="list-style-type: none"> • Title: [Title of Proposed Research] • Abstract: A brief summary of your research proposal, including your research question, methodology, and potential impact. • Introduction: • Background: Overview of the research area and its significance. • Problem Statement: What specific issue or gap in knowledge you intend to address. • Literature Review: • Summary of existing research and how your work will build upon or challenge it. • Research Objectives: Clear and concise objectives or hypotheses. • Methodology: Detailed plan of how you will conduct your research, including data collection and analysis methods. • Expected Outcomes: Potential findings and their implications. • Timeline: Proposed timeline for completing the research. • References: List of key references cited in your proposal. • [Upload your Proposal] 	
<p>2. If by publication of research Papers, submit your proposal including followings, (Max 3000 words)</p> <ul style="list-style-type: none"> • Title: [Title of the Research Summary] • Abstract • A concise overview of your research portfolio, including the main research question, methodologies used, and key findings. • Introduction • Research Context: Briefly describe the field of research and its significance. • Research Objectives: Outline the primary aims of your research and how they are addressed through your publications. • Summary of Publications: To be published • Contribution to the Field • Explain how your body of work advances knowledge in your field, addresses specific research gaps, or offers new insights. • Future Research Directions • Discuss potential future research questions or directions that stem from your published work. • References: Include citations for all referenced publications. 	

- Portfolio of Publications
- Include copies or links to your published papers. Ensure that each publication is clearly labeled and includes complete citation information.
- Organize the publications in a logical order, typically chronological or by relevance to your research theme.
- If applicable, include any supplementary materials or appendices that enhance your application.
- Supporting Documents
- Letters of Recommendation: Obtain letters from referees who can attest to your research contributions and academic capabilities. Provide them with context about your PhD by publication application and your research achievements.
- **[Upload your Proposal]**

3. PhD by Publication of a Book, (Max 3000 words)

- Title: [Title of the Book]
- Abstract
- A brief summary of your book, including the main research question, methodology, and key findings.
- Introduction
- Study Context: Overview of the field and the significance of the research topic addressed in the book.
- Study Problem: Specific problem or gap in knowledge that the book addresses.
- Book Content Summary
- Chapter Overview: Brief summaries of each chapter, highlighting key contributions and findings.
- Key Contributions: Detailed description of how the book advances knowledge in the field and its impact.
- Impact: Description of the book's influence on the field, including any awards, citations, or notable mentions.
- Future Research Directions:
- Discuss potential research questions or directions that arise from the book's findings.
- References: Include citations for any sources referenced in the book.
- Supporting Documents
- Transcripts: If required, provide official transcripts from your previous academic institutions.
- Two Letters of Recommendation: Obtain letters from referees who can attest to the scholarly impact of your book and your research capabilities. Provide them with context about your book and the PhD program.
- **[Upload your Proposal]**
