EDUCATION

I completed my schooling with a focus on the Science stream. I hold a Special Education certification from the National Inspections College in London. I earned my Bachelor of Education degree in 2014 from H.N.B. Garhwal University and am currently pursuing my master's degree in Sociology.

SKILLS

- Practical and theoretical knowledge of working with learners from different age groups and cultural backgrounds.
- Exceptional interpersonal and organizational skills.
- Experienced in organizing and facilitating educational and creative events and working symbiotically within a team.

INTERESTS

I have a strong passion for visual teaching techniques and enjoy actively engaging with students. Spending time with them, whether indoors or outdoors, and playing games is something I look forward to. I like reading comics and storybooks, as well as a love for playing board games with my students. I also find great fulfilment in watching animated movies and indulging in arts and crafts activities. My education in a local government school emphasized the importance of social work, and this principle continues to guide me in my life.

EXPERIENCE

Teaching Assistant and Hindi Teacher in Early Year

- Manage, teach, and develop curriculum for the Hindi classes.
- Conduct the daily 5 course structure to promote literacy and holistic learning.
