Skills

Product development

Eye for detail

Negotiation

Business Development

Excellent Communication

Work History

2002-01 - 2016-03

Partner

Self owned , New Delhi

I started my Buying House for Leather accessories called Sourcing Solutions in 2002 from scratch. With a keen eye for detail, i spent maximum time on the factory floor of our various production partners looking and examining the minutest details of my products carefully.

For the first few years all Quality Control was managed and executed with great precision by me.

From the first shipment of 600 pcs of leather belts, the business grew to a few container loads in a few years. We added bags and wallets to the existing business of belts. We also made a wide range of home products in pure leather.

My clients were primarily from the Scandinavian countries, catering to a very niche and high end market.

It was an extremely flourishing business which i had to shut down after almost 13-14 years as my Husbands work took us to another part of the world.

Education

1991-04 - 1994-04

Bachelor of Arts: Psychology

Mount Carmel College - Bangalore

No Degree: Diploma in Interior Design

School of Design - Bangalore

Running, reading, Art, Trekking

I started running when i was training for my first trek in 2009. Since, i have accomplished many milestones in running, a full marathon being among those. I now have about 9-10 arduous treks in my bag, a few being Annapurna Base camp, Stok Kankri etc.

I read very regularly. My genre of reading includes fiction, autobiographies, spiritual and some non fictions.

I enjoy sketching and oil painting.
