Administrative Work

Geography and Science Head of Department—overseeing the Science and Geography Department, ensuring high standards of teaching and learning are maintained. It encompasses my duty to innovate in curriculum development while aligning departmental goals with those of the school. It also includes creating engaging lessons, supporting assessment processes, collaborating, and sharing best practices. through professional development sessions with the department staff, through mentoring and modelling. Planning and leading the Science and Geography week, which involves a week full of engaging, educational, and fun activities related to the field.
