ABOUT ME

I passed my matriculation examination with 3 distinctions. As I am very passionate in teaching, I joined my undergraduate degree at Sagaing University of Education. After my degree, I work as a high school teacher at a government high school. When I had 1 year experience in teaching, I had to take master entrance and attended my M.Ed. Degree in 2015. Then, I continue my career as a government high school teacher up to 2021. After coup, I started my career as a IGCSE Mathematics Teacher up to today.

EXPERIENCE

Government High School Teacher

2014-2021

As a government school teacher, I deliver mathematics instructions to high school students and I need to do both curricular and co-curricular activities. I always make interactive classroom environment to have overall student engagement and make assessments to evaluate student progress and academic growth. Because of my academic performance, my leadership skill and good relationship with my colleague, all of my principals always give a good remark to me.

IGCSE Maths Teacher

2021- Today

I make sure to master in my subject field first. After then, I learn about both international board of examinations(CIE & Edexcel). I prepare structured lesson plans to teach my lessons effectively. I always observe the updated information from British Council. I always make both formative assessment and continuous assessment to give individual feedback. I make revisions and past paper practices to have exam confidence.

EDUCATION

Sagaing University of Education

2009 - 2013

Bachelor of Education

Sagaing University of Education
