ABOUT ME

With over five years of experience in early childhood education across diverse international settings, I bring a unique blend of teaching expertise, cultural awareness, and a genuine passion for nurturing young learners.

My experience spans from volunteering in Norwegian kindergartens to teaching in a British Early Years Centre in Bangkok and supporting primary students at international schools in Norway and Chiang Mai.

This extensive background has honed my ability to create a safe, engaging, and inclusive learning environment.

Additionally, my recent experience as a Junior Frontend Developer has further strengthened my problem-solving skills and digital literacy, enabling me to seamlessly integrate technology into educational activities.

I am a fast learner, adaptable, and dedicated to fostering a positive and inspiring space for children to thrive.
